## LARUE MAN DIES; STABBED 2 WEEKS AGO

Authorities Begin Investigation into Cause of Death of Albert B. Thomasson.

### CORONER TO VIEW BODY

Edward Hickman, Who Assaulted Thomasson, Awaiting Hearing.

**Special to The Star**  
LARUE, O., Sept. 2—Marion county authorities this afternoon opened an investigation into the death of Albert B. Thomasson, 33, who died here this morning after being stabbed two weeks ago.

Thomasson died at 5 a. m. of complications believed to have developed from the knife wound. Coroner Kenneth D. Smith will make an examination of the body this afternoon and Sheriff Charles C. Fye started his investigation of the case shortly before noon.

Edward Hickman of LaRue is facing a charge of cutting with intent to wound as a result of an alleged fight which occurred at Hickman's home here. Hickman pleaded not guilty when arraigned in the Marion municipal court on the charges and his hearing was set for Sept. 10. He was released on his own recognizance.

County authorities said Thomasson was stabbed during a fight that grew out of a drinking party at Hickman's home. The cause of the fight was not learned.

A post-mortem examination of the body is expected to reveal whether or not the knife wound was the indirect cause of Thomasson's death. It is possible that Hickman will be rearrested and new charges filed against him.

Thomasson was a member of the regular army having served 16 years and was a veteran of the World war. He was born in Hardin county and was the son of Mr. and Mrs. Richard Thomasson. His parents are dead.

Surviving are the following brothers and sisters: Samuel and Dallas of LaRue, Mrs. Edith Howard of Kansas City, Mo., Mrs. Eva Gillespie of Ada, Richard of Jefferson City, Mo., and Howard of Kansas City, Mo.

No funeral arrangements have been made.

## CHINA FLOOD DEAD PLACED AT 100,000

Starvation and Exposure To Add Vast Number, Missionaries Predict.

**Special to The Associated Press**  
SHANGHAI, Sept. 2—American missionaries estimated today at least 100,000 persons had perished in the flood waters of northern Kiangsu province and that probably 2,000,000 others were doomed to die there of starvation and exposure.

Arriving here from the devastated area, they said the flood, caused by the breaking of dykes along the Grand canal, reached its crest last week, just as the country was receiving first reports of the enormous loss of life and property in the overflow of the Yangtze river 500 miles inland.

That the Kiangsu disaster would

equal the catastrophe along the Yangtze at Hankow, Wuchang and Hanyang, was indicated by the missionaries. Their report was the first to mention actual figures in reference to the death toll in Kiangsu. The loss of life in the three Yangtze river cities has been estimated at 200,000.

### PROBE OF "SLUSH FUND" RECESSED

**Special to The Associated Press**  
COLUMBUS, O., Sept. 2—Efforts to determine the source of an alleged "slush fund" to stop the investigation of the Ohio highway department by a senate committee were at a temporary standstill today.

The committee decided to postpone consideration of the matter pending court action in the slander suit filed against Senator David Lorbach, Democrat of Cincinnati, by Clyde J. Knisley of Columbus, who charged the senator had accused him of having offered \$50,000 to halt the inquiry.

Meanwhile, however, the highway investigation will proceed and the committee men were called in session today to take up what they left off before they went to Cleveland last week to attend a legislative reunion. It was at Cleveland that Lorbach named Knisley as the man who asked if he would be interested in \$50,000 to call off the inquiry.

### MUTINOUS CREWS SEIZE SIX SHIPS

**Special to The Associated Press**  
COQUITLAM, B. C., Sept. 2—Six sailing ships of the Chinese fleet were in the hands of mutinous crews today and their officers were being held prisoners until the government agreed to release scheduled rations to pay. A group of non-commissioned officers were directing the ships' activities in the harbor from the bridge of the steamer *La Terra*. They have forced an ultimatum calling on the government to withdraw the military men within 24 hours.

## Governor Intercedes in State Fair Controversy

### PLEAD NOT GUILTY

White Takes Hand as Guthery, Beer Disagree on Ticket Sellers.

### DIRECTOR IN CHARGE

Trouble Starts When LaRue Man's Appointees Fail To Get Jobs.

Controversy between L. S. Guthery of LaRue, state director of agriculture, and Charles M. Beer, state fair manager, over control of the Ohio state fair became as heated last night that Governor White returned to Columbus from the Cleveland air races to take a hand in the disagreement, Associated Press stories stated today.

One man discharged.

Dissension between the director and the fair manager assumed serious proportions yesterday when Guthery discharged the chief ticket seller, Lamar Funston, and replaced him with William J. Miller of Columbus. Funston was discharged because he gave work to ticket sellers of his own choosing and did not employ men designated by Guthery, dispatches from Columbus stated.

Government, Church Reach Accord Over Lateran Treaty, Concordat.

### 15,000 CLUBS TO REOPEN

Both Sides See Victory in Agreement; Observers Regard It as Compromise.

**Special to The Associated Press**  
ROME, Sept. 2—A final accord was reached by Pope Pius XI and Premier Mussolini today in their bitter three months' controversy over Catholic action clubs, clarifying the condition of the Lateran treaty and the Concordat.

The Papal youth organizations are allowed to resume their activities but are restricted to purely religious endeavors. It was specifically stated that there should be no sports or athletics and no intrusion into the syndical or trades union fields.

The Italian government announced an agreement of three parts. They are as follows:

1. Catholic action organizations are specifically dissociated under the control of bishops who appoint club officers and directors, some of whom may be from parties hostile to fascism.

2. There can be no political action of papal clubs, dissociated from the Italian flag.

3. The youth clubs shall be known as "youth associations of Catholic action." They shall have no flag except the Italian flag.

There shall be no organization of papal clubs and those already formed within Catholic action must abstain from syndical labor, confining themselves to religious work.

4. The youth clubs shall be known as "youth associations of Catholic action." They shall have no flag except the Italian flag and their religious banners.

It was finally agreed that these local associations must abstain from any sports or athletics, limiting themselves to educational and recreational activities with religious ends in view.

This agreement, regarded by each

as fair except the Italian flag.

# HOOVER DELAYS DECIDING PLAN FOR FINANCING

Studies Conditions Before Making Choice Between Bonds and Tax Increase.

By The Associated Press  
WASHINGTON, Sept. 2.—The day of reckoning—on how to balance next year's budget of the study of business conditions by government, will await further the administration.

Confident that the next few months would show a recovery and a consequent increase in income tax receipts, President Hoover is withholding a decision whether to recommend an increase in taxes or to resort again to a bond issue to meet another prospective deficit.

But there is every indication that the next fiscal year will show a difference of about \$100,000,000 between government expenditures and receipts.

Congressional leaders have advised Mr. Hoover that a recommendation for a tax increase would mean a bitter contest over the vital issue of how to raise new revenues. In view of this, Republican leaders are hopeful the treasury will see its way clear to tide over the depression by another series of bond issues similar to those of this year.

*McNelly's View*

McNelly Mellon, whose word will go a long way in the final decision, already has suggested that the American taxation system be put on a broader base, instituting that he favored new excise taxes similar to those of the war period, to assure the nation a more even flow of revenue.

While Mr. Mellon is joining the President in withholding a recommendation pending further study of the business outlook, Republican independents have gone on record for a tax increase.

However, the Republican independents would raise the additional revenues by increasing the rates the higher incomes, restoring a gift tax,废除ing the estate tax, etc.

This program does not coincide with that in mind by Secretary Mellon. Therefore, the congressional leaders see every prospect of a bond drawn out fight should Mr. Hoover recommend the tax increase.

*House Votes Three Bills*

It so happens that both Republicans and Democrats among the congressional leadership are advocating a resort again next year to the issuance of either bond issues or short term securities to meet the deficit. They have pointed out to the administration that in view of the depression the government is able to get any amount of money it needs at low rates of interest.

Through two mergers, became a part of the Continental Bank & Trust company.

**Audit Revealed Nothing**

He is accused of using securities owned by customers of the bank. The customer received a receipt. A record was made for the bank. But when Wolf took a hand, he would also take the record that went with it. Thus, so far as the bank was concerned, there would be no record that the bond had ever been deposited. Hence an audit would reveal nothing.

These bonds were placed by Wolf with brokers as margin for his speculations, the officials said. When a bond had to be accounted for, Wolf would get it back from his broker, substituting another.

Wolf, the man credited with thus amassing a fortune largely on the strength of his reputation and his boldness, is regarded by his Elver Forest acquaintances as a "model neighbor." He served as usher in one of the churches of his community.

None of the many people who knew him ever suspected, they said, that he was dealing in millions on the markets. None could recall of his ever having gone to a night club or dissipating in any way.

Wolf began his banking career as an office boy and worked his way up gradually. He admitted, officials said, that he first began embezzling money from the bank about 12 years ago. His market speculations kept him about even, they said, until the crash of 1929, since which time he was forced frequently to recall his securities from the brokers, replace them in his department, and take new ones to cover up.

He is married and has a 15-year-old daughter, Marjorie. It was said he was a model husband and father as well as neighbor.

## REITER PLEADS NOT GUILTY TO CHARGES

Man Wounded in Filling Station Burglary Arraigned in Court Here.

Clement Reiter of Toledo, who has been in the City hospital recovering from gun shot wounds received following the burglary of the Stiner filling station at Waldo early last month, pleaded not guilty to a charge of breaking and entering in municipal court yesterday afternoon. Due to the illness of J. H. Eymon, his attorney, no庭上 has been set for the hearing. He was taken back to the county jail.

Reiter and his brother Lawrence were captured by Ernest Stiner, owner of the station following the burglary and after he had fired a charge of buckshot into Clement's back and legs. Lawrence was later found by Stiner concealed in the weeds near the station. He pleaded not guilty when arraigned before Judge Martin, but was bound over to the grand jury when a watch found in his possession, was identified by Stiner as one taken from the filling station. He is being held in the county jail pending action by the grand jury.

## RESCUERS' ATTEMPT TO SAVE MAN FUTILE

Pennsylvania Plumber Entombed in Well; Dies Before Aid Reaches Him.

By The Associated Press  
LANCASTER, Pa., Sept. 1.—Digging down through 30 feet of rock and earth, rescuers early today extricated the body of William Bowes, unbroken eight hours after the bottom of a well in Rowenna, near here. He had died shortly before.

Bowes, a plumber, was installing a new pump in the century-old well when the sides caved in upon him.

His father, Henry Bowers, sat at the brink of the well throughout the night, while his wife and three children at their home were kept informed of the progress of the rescuers.

Workers, headed by Allen Galt, a life-long friend of the man, were in communication with Bowers after they had dug two hours. He kept calling for them to "hurry." His last words that filtered up through the mass of large stones which had faced the well were "sherry: I'm getting cold."

The rescue squad, composed of volunteers from nearby farms, was handicapped throughout their task by lack of space and fear that they might further injure the entombed man by their efforts.

## WOMAN'S SOCIETY TO MEET THURSDAY

The regular meeting of the Woman's Society of Trinity Baptist church will be held at the church parlor Thursday at 2 p.m. "Light for the Dark Continent" will be the study topic. The leader will be Mrs. O. T. Swigert and her assistant will be Mrs. Homer Little, Mrs. Lee, Mrs. S. J. Hart and Mrs. Lester Craven.

## Red Men Meet

Sandusky tribe No. 80 Improved Order of Red Men held its regular meeting last night with routine business transacted. It was announced that the lodge would hold the first mid-week public dance to night at the hall. The Saturday night dance will also be held.

side as a victory, might be considered as a compromise. It reopens 15,000 clubs closed three months ago but bars them from those athletic activities which the Fascists reserve for their clubs.

It emphasizes the restriction already in the Concordat that Catholic action clubs shall be purely religious but clarifies brief phrases of the document by mentioning sports and syndical action.

The agreement automatically re-establishes the condition whereby Italians may belong both to Catholic action organizations and the Fascist party. The Fascist party early in the controversy issued an order declaring membership in the two organizations was incompatible.

It was thought possible that the settlement, in which Father Tacchi Venturi, a little known Jesuit priest, served as a sort of super-ambassador between Pope Pius and Mussolini, might publicly be sealed by Mussolini making the Pope a long deferred visit.

## Had Planned Visit

It Duke had been expected to visit the Pope after the Lateran and Concordat were signed, as did King Victor Emmanuel and the royal family, but the controversy developed soon and the official call was never mentioned.

Disturbances developed May 20, when Fascist students began a series of nationwide demonstrations that lasted three days until Mussolini called a halt to the violence. There was some lost blood, alleged invasions of extra-territorial Vatican properties in Rome, and destruction of club headquarters in several cities.

A portrait of the Pope was alleged to have been trampled in a street in Rome. The Vatikan demanded an apology and punishment within 48 hours. The Italian government replied 40 days later.

Refreshments were served during the social hour by Mrs. Roy Epley, Mrs. F. M. Falchick and Mrs. C. L. Blash. Guests were present from United, Grable Prairie and Bethlehem granges.

## WILLIAMS INSPECTS GRANGE AT MEETING

Progressive Receives Grade of 84; Plans Made for Public Session.

As in the past The Star is anxious to publish accounts of family reunions in Marion and vicinity. Due to the large number of reunions here each summer, however, it will be impossible to print lists of general reunions attending. Persons sending in accounts of reunions are asked to send names of guests. Accounts should include the place of the reunion this year, next year's meeting place, officers elected and features of the program.

## Bates

Don Greer of LaRue was elected president and Miss Margaret Markley of Kinton secretary at the fourth annual reunion of the Bates family, held Sunday at Hinsdale park at Findlay. More than 75 were present.

The next reunion will be held at the home of Don Greer at LaRue Sunday, Aug. 20, 1932.

## McVay

More than 75 attended the eleventh annual reunion of the McVay family Sunday at the Community park at Prospect. Officers elected were Ray F. McVay of Columbus, president; L. L. McVay of Oakwood, O., vice president; R. F. McVay of Columbus, treasurer; and Miss Dolores McVay of Fort Wayne, Ind., secretary.

Lunch was served at a table centered with a large cake, honoring the birthday anniversaries of W. B. McVay of Marion and L. L. McVay. An afternoon program of readings, songs and contests was presented. Honors in contests went to Bernard McVay and Donald Remond of Oakwood, Aaron Denison of Continental, O., Miss Dora Baumgartner of Marion, Mrs. Ida McVay of Findlay, Mrs. Ida McVay of San Diego, Calif., and Mrs. Carl McVay, and Ray McVay of Columbus. Mrs. Ida McVay Platole and daughter Daphne of San Diego were present from the farthest distance.

The next reunion will be held Aug. 20, 1932, at the same place.

## Jenner-Croft

The eighteenth annual reunion of the Jenner and Croft families was held Sunday at Garfield park with more than 150 present. A short program was presented and Arthur Croft was elected president and Fred Oesterle secretary and treasurer. The next reunion will be held Sunday, Aug. 29, 1932, in Angie's county. A place has not been decided upon.

## Bryant

J. W. Bryant was elected president of the Bryant family reunion at the third annual reunion held Sunday at his home one mile north of Kenton. G. T. Bryant was elected secretary and treasurer and C. M. Bryant and Miss Leona Owings were named as a program committee.

Three appearing on the program were Mrs. Ollie Owings, LeRoy Bryant, Billy Ray Williams, Alvin Williams, Alice Jean and Marion Bryant, Cyril Bryant, Miss Ruth Bryant, Pauline, Leona and Leona Owings, C. L. Barrett, Sarah and Anna Elizabeth Borchett and Lewis Kemp.

Special to The Star

MT. GILEAD, Sept. 2.—At a  
meeting of the Washington town-  
ship board of education Monday  
night it was determined to pre-  
pare a bond issue of \$60,000 for the  
approval of the electors of the  
district this fall.

The money will be used to build  
the new building at Iberia to  
house all elementary and high  
school pupils of the Washington  
district.

The board is making arrangements  
for the employment of a different  
architect than the one originally  
designated to prepare the  
plans for the new school.

Henry Lapp, president of the  
board, stated that all plans will  
be prepared this winter and  
contracts let so that construction  
can be started early in the spring if  
the bond issue is approved.

The state department of education  
has threatened to take away the  
Iberia school's charter if a new  
building is not reconstructed  
as soon as possible.

# Irish-C., D. & M. Clash in Little World Series Today

## THREE SEMI-FINAL GAMES SUNDAY IN SOFTBALL TOURNAMENT

### INDUSTRIAL CHAMPS SLIGHT FAVORITES TO BEAT ST. MARY NINE

Hard-Fought Battle Looms as Two of Strongest Entries Cross Bats.

The St. Mary Irish and C. D. & M. Electricians, the only two undefeated lines in the Little World series, will lock horns today at 6 p. m. at Lincoln Park in the third act of the battle for the recreation baseball championship of the city of Marion. The game between these two rivals will mark the return to the series of the bitter and hard-fought competition which departed so suddenly with the game on Monday between the Kappas and First Presbyterians.

Today's game is anybody's battle. The Electricians will probably be slight favorites to win but favorites are favorites only in name when they oppose the Irish.

Gene Gunders will do the hurling today for the Irish but who will take the mound for the C. D. & M. is not known for certain. Gamble seems most likely to get the call although Manager Simpkins may delegate Applegate to do the hill labor. Either can do a good job of it.

The winner of today's game will move forward a big step in the general direction of the city title although the losers will not be mathematically out of the race.

Two defeats are necessary for elimination and neither has been beaten once yet. The losers of the game today will meet the First Presbyterians on Friday. The Friday game eliminates one more team from the series.

### PRUDHOMME CHALKS UP 13TH WIN OF YEAR

St. Paul Hurler Only Three Behind All-Time Association Record.

By The American Press  
CHICAGO, Sept. 2—Johnny Prudhomme, ace of St. Paul's pitching staff, today was only three victories away from the all-time American Association mark for consecutive triumphs.

Prudhomme with the aid of some opposite hitting yesterday racked up his thirteenth straight conquest, and needs only three more to equal the mark of 16 in a row set up by Charley Hall, another Saint star, in 1915. Prudhomme's job yesterday was anything but easy, for the Columbus Red Birds fought away at him for 18 hits, and wouldn't lie down until the ninth when St. Paul rallied for three runs and a 12 to 11 victory.

Prudhomme's victory came in the first game of a doubleheader, and the Saints followed up by smacking the Birds 12 to 3, in the second contest.

Dutch Henry accounted for his twentieth victory of the campaign when Minneapolis defeated Toledo, 6 to 5.

Another leading hurler, Ken Penner, of Louisville, added another triumph to his string. The veteran right-hander accounted for his nineteenth of the season as Louisville defeated Milwaukee, 6 to 2.

Wet grounds kept Minneapolis and Kansas City idle.

Mac Smith is a good tennis as well as a good golf name. Mac Smith of East St. Louis is the new singles champion of southern Illinois.

### NO GAME TODAY

The C. D. & M. Electricians company and St. Mary's Sunday school softball teams will not play their scheduled Little World series game today. Rain forced the postponement of the game until Thursday at 6 p. m. at Lincoln park. No decision has been made concerning the playing of the scheduled Friday game between the losers of the C. D. & M.-St. Mary's game and the First Presbyterians.

### Why Kappa Nine Didn't Get Far in World Series

A little chart of figures compiled from the two games the team played in the 1931 and the two games played in the 1930 Little World series, provides evidence to show why the Kappas have failed both to go very far toward winning a city softball championship.

The 1931 figures include the entire lineup of players but the 1930 chart shows only those players who competed both in 1930 and 1931. This done to allow comparison for the two years.

It is easily seen that when it comes to battling the Kappas boast about as much organized punch as the Cincinnati Reds of the National baseball league. In other words, there isn't any.

George Hinklin gets the honor of leading the Kappa batters this year with a high average of .300.

However, with the exception of Cliff Ward, who batted .429, every other batter is at 200 or lower. Six are lower than .300, which might get a team by in a grade school league but which won't get any one far in a Little World series.

Johnnie Hilt, who led the hitting last year with .300, tumbled downward this season at a dizzy pace, hitting safely but once in eight times for an average of .125.

No sir, those figures are not the kind that would make a major league owner want to book a Kappa. Here they are. Look over. They'll show you why the Kappas lost the first two games both in 1930 and 1931.

### LINDEN GOPHERS TO TAKE ON DELAWARE

Jenner Lunches of Marion in Another Battle with Strong Ashland Club.

BY BOB KIRKPATRICK  
Sports Editor, The Star

It will be a battle to the finish Sunday afternoon at Lincoln park when the five remaining teams of the Central Ohio recreation baseball tournament go to the post in a program of semi-final games that will decide which two will be allowed to return a week later to battle it out for the tournament championship. Three games will be played Sunday and what games they will be!

After a week's absence the Linden Gophers, of Columbus, favorites of local softball fans, return for their third game of the tournament, opposing the Delaware Elks in the second game of the afternoon.

The Jenner Lunches of Marion, the third act of the battle for the recreation baseball championship of the city of Marion. The game between these two rivals will mark the return to the series of the bitter and hard-fought competition which departed so suddenly with the game on Monday between the Kappas and First Presbyterians.

Their story. Those boys can hit! The Beck's Barbers of Findlay, who waited until the third game of the tournament to use their first string pitcher will play the winner of the Jenner Lunches-Mohican Rubber game at 2:30 p. m. Here is another battle that will be well worth seeing. The Beck nine didn't look so hot in its first two games but when the first string pitcher got warmed up in the third game the Findlay boys looked the part of a first class ball club. They are not to be taken lightly by any team.

The five teams remaining in the tournament can all play ball. Make no mistake about that. This tournament has been too tough for any second rate teams to get this far. Upsets have been the case, as in all tournaments but this has only added to the interest.

Even to the unfinished fight for the medal, the young stars of American golf dominated the afternoon. Charles Seaver of Los Angeles, a 20 year old shotmaker with a reputation from former golfing wars, and Johnny Lehman,

### SEAYER-YATES MEET IN FEATURE MATCH OF GOLF TOURNAMENT

Youthful Field Starts Match Play in American-Amateur Tournament.

BY PAUL NICKELSON  
Associated Press Writer

CHICAGO, Sept. 2—Bobby Jones had plenty of high class golfing company with him in the gallery today as the fight for the national amateur championship entered into hand-to-hand match play combat at Beverly.

Three former champions and at least 10 other well-advertised favorites were with him, victims of the upsetting 36 hole qualifying round that ended in a rain storm yesterday. Only one former ill-fated, Francis Ouellet, of Boston, who won the title seventeen years ago, was left in the picture which was dominated with at least a score of youngsters below 25 years.

Even to the unfinished fight for the medal, the young stars of American golf dominated the afternoon. Charles Seaver of Los Angeles, a 20 year old shotmaker with a reputation from former golfing wars, and Johnny Lehman,

24-year-old Chicagoan, who won the western amateur crown at Beverly a year ago were tied for the honor with Arthur "Ducky" Yates, from Rochester, N. Y., and the oldest of the three at 35 years.

They were tied at 148, six shots over par on the tough Beverly layout.

Beaver and Yates were teamed together by the pairings to meet in the feature match of the opening 18-hole match play tussle today and they had an opportunity to settle part of their argument.

Only one foreign threat was left in the field as the match play tussle started—G. Ross Somerville, Canadian amateur champion Cycl Tolley and T. Philip Perkins, former champions of England, were out along with F. H. L. Brown, the hope of Honolulu. But they had plenty of company. Such capable shotmakers as Dr. O. F. Willing and Frank Dolph of Portland; Charles "Chick" Evans of Chicago; "Jimmy" Johnston of St. Paul; Watty Gunn of Pittsburgh, and Lawson Little of San Francisco were among the galleryites.

12 years in the majors, the Fordham flash has played on six pennant winners—and four clubs that finished second.

### Frisch at Best in Tough Going

Frankie Frisch may not lead National league second sackers in hitting, nor even in batting at

though he has hit 300 or better for 10 seasons in a row.

However, when a sensational defensive play or a safe hit is needed to pull the Cardinals out of a hole, Frankie usually comes through. He's there in the pinches, and his spirit, game and his good humor and loyalty

make him one of the greatest team players in baseball.

WHAM! LOU CRACKS TWO FOUR BAGGERS AS YANKS COP PAIR

Gehrig Takes Big Lead on Ruth in Race for Slugging Title.

BY MUGS FULLERTON, JR.  
Associated Press Writer

If Lou Gehrig keeps on hitting at the present rate, it seems likely that his name will be substituted for that of the Great Babe Ruth in the baseball adage "as Ruth goes so go the Yankees."

Lou has been hitting all week after doing well through the whole season and his burst of home run hitting has helped the Yanks considerably in their effort to overtake Washington. He clouted a home run in each game of a doubleheader yesterday to make a record of six homers in successive contests and give himself a comfortable margin in the race with Ruth for slugging honors with a total of 40.

Lou's thirtyninth four bagger and a single, three hits by Babe Ruth, and some effective pitching by Lefty Gomez gave New York the first game by an 11 to 3 score.

## State Heads Approve Hoover Relief Program

Eight Governors Sent Indorsements of Plan To Mobilize Nation's Resources for Aid of Jobless Next Winter

By The Associated Press  
WASHINGTON, Sept. 2.—The administration's plan for unemployment relief received approval from eight state governors as the national organization selected leaders to mobilize resources in local communities to meet the situation this coming winter.

Recommendations of the plan, being carried out by Walter S. Gifford, national relief director, were received at the White House late yesterday from five governors, while three previously had signed their hasty approval.

Chief executives indorsing the plan were Cross of Connecticut, Brucker of Michigan, Emerson of Illinois, Parnell of Arkansas, Cooley of West Virginia, Ralph of California, Winton of New Hampshire.

### Mexican Senoritas Fight Duel Over Love Rivalry

By International News Service  
MEXICO CITY, Sept. 2.—

Two pretty Mexican señoritas, rivals for the hand of Sergio Silva, fought a duel last night on the outskirts of Mexico City in the moonlight before dawn today.

When the police arrived at the scene, a vacant lot, they found Sofia Mendoza lying dangerously wounded with a bullet in a lung and María de Los Angeles standing nearby with a hand on her hip and a pistol in her hand.

"We both loved Sergio and decided to shoot it out," said María as the police placed her under arrest. "There was no other way."

The two girls fought their duel without seconds. A passer-by saw them meet, turn their backs to each other and measure off 20 paces before they turned and fired. They used 25 caliber pistols.

Silva is a local business man.

## TIRE INDUSTRY REPORTS GAIN

Production for Month Grows  
Above 1930 Mark; Shoe  
Output Increases

By The Associated Press  
CLEVELAND, O., Sept. 2.—Production gains of 10 per cent over the 1930 level were reported today for the rubber tire industry by the Federal Reserve bank of Cleveland in its monthly survey for the district embracing Ohio and parts of West Virginia, Pennsylvania and Kentucky.

The rubber industry shared the spotlight of improvement with increased manufacturing of shoes and a predicted bumper harvest in agricultural lines this fall.

Generally, however, the report showed trade and industry at reduced levels, with steel mills operating only 30 per cent capacity during most of July and August and coal production 15 per cent below that of last year. Auto accessories, clothing and miscellaneous industries were reported "extremely dull."

Despite curtailed workings, the steel business was 10 points higher than the low of 1921, known as a depression year.

Shoe production was 4.4 per cent above last year's mark, and wheat, corn and fruit crops in the agricultural classification were predicted to be twice as large as last year's harvest.

Ohio industrial employment was about six per cent below 1930 levels, and construction activity continued at a slow pace. The employment situation was reported better at Dayton, Toledo, Lexington and Cincinnati than at Akron, Canton, Cleveland, Columbus, Pittsburgh and Youngstown.

Although retail clothing sales were in larger volume, manufacturers were not optimistic.

Retail trade reductions were reported in the majority of major cities of Ohio, ranging from 10 per cent at Cleveland to 12 per cent at Toledo.

## The Stars Say—

For Thursday, Sept. 2

A Lively day, of fine initiative and enterprise, is foreseen by the major solar as well as lunar aspects holding important sway over current events. Notable will be the removal of some old contention to make way for definite progress with welcome change leading into new channels which will stabilize the fortunes and increase the real possessions. It is an auspicious time for real estate and tenancies. But be careful of snap judgments, caustic speech, petty deceptions or small injuries.

Those whose birthday it is may anticipate a very lively and enterprising year, with affairs and possessions thriving after the breaking up of a stubborn impediment. There may be welcome change and substantial increase through industry and outstanding ingenuity, but shun small deceptions, caustic speech and also peculiar injuries. A child born on this day may be ingenious, practical, energetic and successful.

**FEDERAL BUREAU  
REPORTS FOR JULY**

Marion Situation Included in Fig-  
ures of U. S. Service

The recalling of employees by a  
textile mill and a demand for farm  
help somewhat eased industrial  
situation in Marion during July, a  
report of the state director of the  
United States employment service  
shows. However, the report contin-  
ues, the apparent surplus of  
labor embraced practically all  
trades, but was particularly noticeable  
among iron and steel workers.  
The volume of building was small,  
here, the report shows.

The labor surplus is general in  
Ohio, with nothing but municipal  
and public utility improvements on  
hand to give workmen jobs, the  
report discloses. Mansfield was  
affected like Marion, although  
several municipal improvements  
keep a number of men busy in  
that city. Thirty were thrown out  
of work when a factory burned.

## Russian Prison Colony Governed by Inmates

By The Associated Press  
MOSCOW, Sept. 2.—A self-governing prison colony without guards or bars, the inmates of which decide who shall be admitted and where they shall live, is Soviet Russia's most striking experiment in advanced penology.

Located 15 miles from Moscow the "Ogope" commandery was established seven years ago by F. Shchurovsky, then head of the secret police, for the reclamation of homeless youths who roamed the streets of large cities by the thousands after the revolution, presenting a dangerous menace to life and property.

## ROTARY SATISFIED WITH OLD CALENDAR

**Votes Against Proposal To Make 13-Month Year;**

**Weil Is Speaker.**

Taking the attitude that the world had gotten along with the present 12 month calendar for several thousand years without any serious difficulty, members of the Marion Rotary club at their weekly luncheon meeting yesterday, voted overwhelmingly in favor of retaining the present calendar rather than change to a proposed 13 month plan.

The vote was taken at the request of the Journal of Calendar Reform of New York City which according to a letter to Don A. Howard, president of the club, is obtaining the sentiment of various groups over the country for the purpose of submitting it to the League of Nations in Geneva next October when the question of changing the calendar will be presented.

The furniture business from the

standpoint of the retail dealer, was the subject of a talk by Charles Weil, manager of the Marion Furniture Co., at the luncheon.

## SEES BROTHER AFTER 54 YEARS IN WEST

A family reunion was held recently at Long Beach, Calif., when

Mr. and Mrs. Pearl Sipes of Fulton, Mo.; Fleming of Leonardburg, Mr. and Mrs. T. S. Davis of Mansfield and Mrs. Ferne Bales of Rich mond, Ky., visited at the homes of

Z. O. Davis at Long Beach and Misses Frances and Cora Mattox of Cuver City. The latter are sisters of Mrs. Bales while others of the party are brother sisters and sister-in-law of Mr. Davis. The reunion marked the first time Mr. Davis' relatives had seen him since he left Cardington for the west 54 years ago and the visit was planned as a surprise to him. The party went to California by way of the southern route. They visited Salt Lake City and Yellowstone park enroute home. They also visited the Catalina Islands while on the coast.

than a blot on the heart."The governor of Idaho has called out troops  
to protect the state's forests from incendiaries  
who are firing them to get jobs fighting fires.  
It's a case where "forced" labor by the  
guilty would be justifiable.The bus line, which advertises a New York-  
to-Harrisburg service which will require a  
speed at times of seventy miles an hour to  
maintain it, will have to do some fancy driving  
in New York state, as Pennsylvania has given  
it orders that a speed by buses of more than  
thirty-five miles an hour will not be tolerated  
over her highways.The statement of President Howard W.  
Beach, of the Oyster Growers and Dealers' as-  
sociation, that oysters are the guardians of  
beach and river purity, has a tendency to re-  
move one from any sense over his prediction  
that, unless there is conservation of them,  
oysters will be selling within twenty-five years  
at \$2.00 a dozen. If he means it as we take it,  
we don't care if the price goes to \$2.00 for  
one.Former Governor Alfred E. Smith, of New  
York, urges the consolidation or counties to  
bring down the cost of government and lessen  
the tax burden. That's one way to a desired  
end, and a little study of it may force the con-  
clusion that it is not a half-bad way.The Ohio tax commission last week named  
forty-eight cigar tax inspectors who are to  
receive \$1,000 salaries and expenses. Even in  
the struggle to raise finances to meet a threat-  
ened deficit, it may be observed, the plan  
adopted makes provision for more jobs for the  
"faithful."Dr. Raymond L. Dittmar, curator of reptiles  
and mammals at the Bronx Zoo in New York,  
in a newly-published book holds that, after  
many years of observation, the average wild  
animal has "character, personality and  
conscience" much like the average human being;  
that animals are temperamental, perverse,  
vicious, phlegmatic, diffident and deceitful as  
the case may be. He's a bit slow if it took  
him years to discover that.Governor W. H. Murray, of Oklahoma,  
charges that Governor E. D. Roosevelt, of New  
York, in proposing a \$20,000,000 state unem-  
ployment fund to be raised by boosting the in-  
come tax, had appropriated his, Murray's, plan.  
"I saw in the paper the other day, what a great  
statesman he was," was the comment of  
the Oklahoma governor. "You see where he  
gets it." It forced right down to the point.  
"Alfred Bill" might confess that he's the only  
fountain head for all matters tending toward  
the betterment of mankind. He isn't any  
shining violet.

## Sir Hall Caine.

The life story of Sir Hall Caine, noted British  
novelist, who died in his home, Greaves castle,  
at Douglas on the Isle of Man, Sunday night,  
at the age of seventy-eight, is that of a poor  
boy, an orphan, who by his own efforts gained  
riches, influence and honors beyond the ordinary.Twenty years ago he was recognized as the  
richest novelist in the world. Up to that time  
his theatrical royalties amounted to \$450,000  
and the sales of his works brought him an  
even larger amount. On the recommendation of  
Premier David Lloyd George he was made  
a member of the Order of the Companions of  
Honour, and he was made an officer of the  
Order of Leopold by Albert, King of the Belgians,  
both these honors coming to him as the  
result of his literary work during and on the  
World war.For fifty years, Sir Hall produced novels  
and plays in quick succession, many of the  
latter being dramatizations of his novels, which  
were very adaptable to stage dramatization.  
Quite a number of his novels were produced  
in the movies, and several of them attained  
the high degree of success which they won in  
book form and on the stage.Among his more notable novels, which still  
hold a place of esteem in libraries of fiction,  
are "Son of Hagar," "The Shadow of a Crime,"  
"The Christian," "The Deceaser," "The Predi-  
cal Son," "The Eternal City," "The Bondman,"  
"The Scorpion," "The Manman," "The White  
Prophet," "The Master of Men" and "The  
Woman They Gave Me."The first writings of Sir Hall included "Son-  
nets of Three Centuries" and "Recollections of  
Scotland," both published in 1888, and "Life of  
Cecilie" and "Cobwebs of Criticism" a year  
later, none of which proved overly successful.While it probably was not a factor in his  
attainment of success as a novelist, it is a  
curious fact that he did not come into popular  
fame as a novelist until beginning the titles  
of his novels with the word, "The." From that  
time on, success was his.

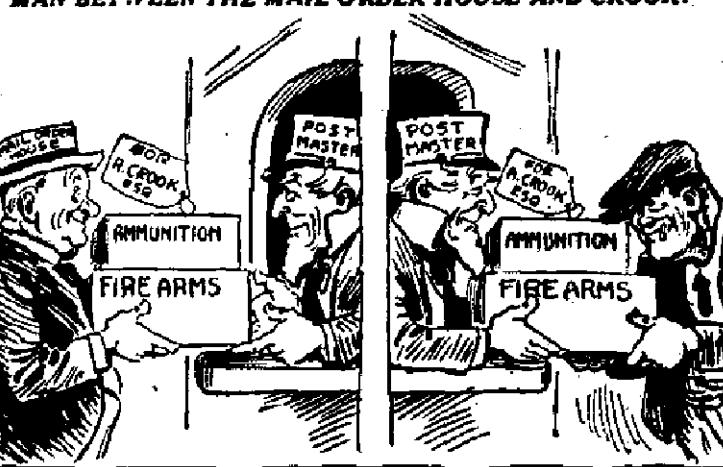

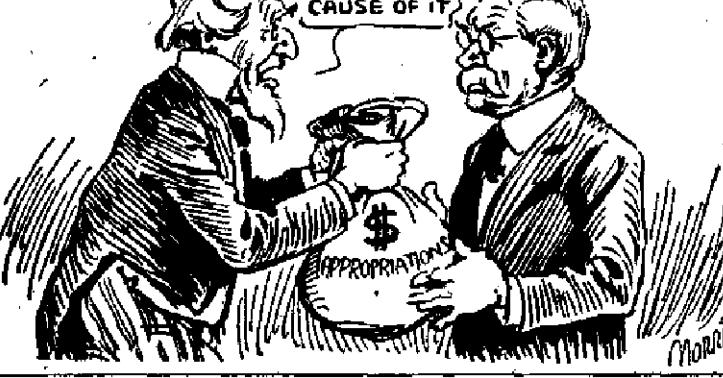

## Extravagance in Hollywood.

Representatives of the 14,000 movie exhibitors  
affiliated with the Motion Picture Owners  
of America and the Allied States Exhibitors  
association assembled in New York City Tues-  
day afternoon to protest against what was  
termed "the most colossal orgy of extravag-  
ance known in peacetime industry."The immediate cause of the gathering was  
the new sales policy of a large producing cor-  
poration which is putting into effect a ten per  
cent increase in the price of films. The exhibitors  
hold that if this policy is established it  
will mean a new basis of film rentals which  
all exhibitors are agreed no theater can pay  
and survive.""Mounting production costs, poor pictures,  
crazy competition for stars, a riot of extravag-  
ance and waste—all these burdens are passed  
on to the theater men and thesgers" is the  
way one independent theater owner, David  
Barrist, of Philadelphia, put it. "We are  
gathered here to formulate a definite plan of  
action for the correction of those abuses. To  
the producers we say that any increase in film  
costs means an increase in film prices. This  
we shall oppose to the last letter, carrying our  
fight to the millions of thesgers who pa-  
tronize our theaters."While this increase in the price of films was  
the immediate cause of the gathering, agitation  
for a retrenchment in the cost of picture pro-  
duction goes back further and to a different  
source—the financial interests pulling up the  
money for production.The first public insight into the woeful waste  
of which Hollywood is guilty was the disclosure  
by the British humorist, P. G. Wodehouse,  
that he had been paid \$104,000 a year for doing  
practically nothing. Shortly thereafter it de-  
veloped that Miss Constance Bennett had been  
paid \$30,000 a week for ten weeks, or \$300,000  
in all, to appear in three pictures. Clever as  
Miss Bennett may be, it can hardly be held  
that her ability is such as to justify paying  
her at the rate of \$3,000 a day or \$30,000 a  
year.In an article headed "Film Industry's Day of  
Reckoning at Hand," printed in a recent issue of  
the Magazine of Wall Street, a writer brings  
out other financial excesses in the industry,  
not only in salaries paid, but also in waste in  
filmage, in time, and in failure to utilize stars  
engaged at high salaries."The director who takes a prepared story  
and is unsure of what he should do with it  
that he must expose 200,000 feet of film to  
ensure that he gets 7,000, does not deserve  
\$3,000 a week," the writer in question, C. F. Morgan, puts it. "If he knows so  
little of his intentions that he permits the con-  
struction of and fails to use expensive sets, he  
is incompetent. If he employs players and fails  
to use them before the cameras, he does not  
know his business."Hollywood is rather fond of developing and according an  
accolade to "genius." There is one whose sal-  
ary is in excess of \$300,000 a year, and whose  
wife earns nearly \$200,000. There are others  
whose chief recommendation to the payroll is  
that they play a good game of pinochle with  
the right group, and they get up to \$2,000 a  
week.Good pictures can be made at less than half  
the cost of those turned out by the large stu-  
dio today," writes Mr. Morgan in conclusion.  
"If the present group of those in control can't  
do it—and it is my firm conviction they can't—  
then new men will have to be found, and I  
can find several in Hollywood today, working."But the worst phase of the situation is not  
brought out by either the motion picture ex-  
hibitors or this magazine writer. It is not the  
effect of these ridiculously extravagant salaries  
paid stars and directors; it is not the ex-  
travagant pay of writers for doing nothing, or the  
wasting of settings, film or time of stars.  
It is the effect of all these on the public,  
which is doubly harmful at a time when mil-  
lions are out of employment and hundreds of  
thousands are near to if not in want.The protest of the exhibitors may prove ef-  
fective. It's a possibility. But that the grow-  
ing remittance of the financial interests  
against the reckless waste of money will prove  
more effective in a far better betting proposi-  
tion.Reports from the Bahamas go to show that  
both men and guns were secured in this coun-  
try to carry on the recent revolution in Cuba.  
Rum-running has become such an industry un-  
der Royalism that it's hard to imagine any-  
thing as slow as running guns out of the coun-  
try would have appeal to the venturesome."Any American," Ambassador Dawes is  
quoted as saying, "who without preliminary in-  
vestigation sends money to a stranger to estab-  
lish claims to some supposed estate in England  
is a double-distilled fool and an ass," and he  
at the same time paid his respects to the "big-  
leg" lawyers who are duping Americans in in-  
creasing numbers. There is this charm to the  
ambassador's utterances: they never leave the  
slightest doubt of his meaning.

## Synthetic Farmers' Stands.

Certain enterprising individuals, taking ad-  
vantage of the popularity of farmers' road-  
side stands, have turned themselves into  
revenue-farmers and have gone into the busi-  
ness as competitors of the growers.In some cases, it has been discovered, these  
hucksters buy farm produce in city markets  
and haul it into the country, where it is dis-  
played at advantageous points in such a man-  
ner that passersby will be led to believe that  
it is fresh from the fields.Such enterprise is within the law, and  
when properly conducted may be a com-  
mendable means of obtaining an income during  
these trying times.Farmers in some parts of the state have  
protected themselves against the synthetic  
gardener by posting uniform signs guarantee-  
ing that everything on their stands is the  
product of their own farms. This would be a  
wise policy for them to adopt everywhere if  
they are to preserve their roadside business  
from competition of a kind likely to reflect  
against the whole highway stand trade.Buyers patronizing any excepting honest-to-  
goodness farmers do so at their own risk of  
finding when they arrive home that their  
"fresh" vegetables and fruits are nothing but  
the second-rate goods of the city wholesaler.

## Editorial Opinion.

## AGRICULTURAL REVOLUTION.

Here is a condition for the Farm Board to  
look into and watch before the occasional crop  
surplus becomes a permanent surplus.Agricultural scientists have succeeded in  
changing the character of plant life by the em-  
ployment of the X-ray. An annual has been  
changed into a perennial, the portion of which  
is obvious to any one familiar with the great  
labor involved in planting the crops of the  
nation each year.It is understood by those in need of the in-  
formation, that many of the feed and food  
crops upon which the United States depends  
was first turned to the importance of good  
posture. At that time Andry, who was the  
head of the French faculty of medicine, stated  
that most of the diseases of childhood and  
many of the diseases and deformities of later  
life were caused by faulty and poor posture or  
the body.This theory was never seriously considered  
until about twenty-five years ago. There is an  
increasing number of eminent authorities on  
the subject who present definite proof of the  
importance of posture clinics and posture treat-  
ment.Orthopedic surgeons, as well as baby specialists,  
have noticed that many children fail to  
gain in weight and have marked digestive dis-  
turbances. Although there is no trouble in the  
diet and there is plenty of food, the complaints of  
these children are usually associated with  
poor body posture. As soon as the body has  
been trained to the proper posture, and as  
these men call it, in "proper body mechanics,"  
there is an increase in the weight and the digestive  
disturbances disappear.For many years it has been definitely known  
that sluggish bowels which are irregular and  
tend towards constipation, become active and  
regular when there is improvement in the body  
posture. There is no doubt that increase in  
body vigor, as well as mental alertness, go  
hand in hand with improvement in the body  
posture and muscle tone.Can this evolution be carried to our wheat  
and corn and cotton? And if it can, will it not  
result in crop excesses yet undreamed of? Certainly  
it would have no tendency to reduce  
excesses, this method by which one planting  
of wheat or corn or cotton would turn  
crops for years to come, until weeds and the  
lack of care or fertility depletion ended the  
true perennial.Many individuals who do not hold themselves  
properly and who neglect the proper erect  
posture often complain of body disorders. They  
are likely to have actual pain, which is ex-  
plained by the irritation of the spinal nerves  
due to bad posture. These signs all disappear  
with the correction of the posture and the  
taking of body exercise.It is interesting to note that in the study of  
the posture of students of the entering classes  
of Harvard and Yale universities, over eighty  
percent were found to fall into posture groups  
designated as "poor" and "bad." Although stu-  
dents collected during the World war are in-  
complete, they tend to show that only fifty  
percent of the young men of the country pre-  
sented good body posture. Many men were re-  
jected for service not because of any definite  
organic disease, but because of poor physique.Thus we see that this condition, in addition  
to its personal appeal, has a great deal to do  
with general health. There is no doubt that  
this condition could be entirely corrected many  
thousands of disorders of the body could be elim-  
inated.MRS. B. B. M. Q.—What would cause con-  
tinual earache in the case of an eight-year-old  
boy? What treatment would you suggest? He  
has had trouble since birth and often goes to  
bed with a hot water bottle. The tonsils and  
adenoids were removed about four years ago.A—This may be due to an underlying cata-  
stical infection. Have him thoroughly examined.  
The treatment depends upon the cause.MRS. K. Q.—What do you advise for little  
hard white lumps about the size of small  
pebbles—they are on the forehead and eye-  
brows?A—These are probably whiteheads—proper  
diet and regular elimination should keep the  
skin free from such blemishes. For full per-  
manent and a self-addressed, stamped en-  
velope and repeat your question.MRS. G. Q.—What can be done for an un-  
pleasant breath?A—Try to find the cause first of all. For  
further particulars send a self-addressed  
stamped envelope and repeat your question.MRS. H. Q.—What causes a terrible pain  
in the neck?A—An examination by your doctor is neces-  
sary to locate the exact cause.—Copyright, 1931,  
by Newspaper Feature Service, Inc.Dr. Copeland will answer for readers of this  
paper questions on medicinal, hygienic and  
sanitary subject that are of general interest.Where the subject of a letter is such that it

## Outstanding American Astronomer.

## BY ADMIRAL MERRIMAN.

The competent and indomitable astronomer  
Hill is one of the noted American astronomers  
well-known to science. But he is almost if not  
quite unknown to the general public. And this  
is because the work he did is so complex and  
abstruse, the equations he worked with an  
almost quite incomprehensible, without very lucid  
explanation, of understanding just what Hill  
did accomplish.George William Hill was born in New York  
City, and received his education at Rutgers  
college. In 1861 he became attached to the  
staff of the Naval Almanac and was elected  
a member of the National Academy of Science  
in 1872, in recognition of the excellent work

NBC Program

NAUTICAL air will be added to the Chicago Serenade with "Lambeth Watch" to be played as a trombone and trumpet duet at 2:30 p. m. Thursday from the NBC Chicago studios. Dvorak's "Song My Mother Taught Me" and a current fox-trot "Come To Me" will be offered by Harry Kogen's orchestra.

Joe Cook's choicest hits from his bulging bag of "gags" will be served when the versatile comedian of musical comedy and vaudeville appears with Rudy Vallee and his Connecticut Yankees over an NBC network at 7 p. m. Thursday. Vallee's orchestra will play new tunes from latest Broadway stage shows.

Weber and Fields, who are still creating laughs after almost a half century before the public, will be the added attraction on the program by B. A. Wolfe and his music orchestra over an NBC network at 8:00 p. m. Thursday.

"Song of the Heart" by Bessie Edmundson, well-known Negro composer and choral conductor, will be one of the offerings by Barbara Maurice operatic contralto during her program with the New World Symphony orchestra from 7:45 to 8:00 p. m. Thursday, over the WABC-Columbia network. The orchestra will feature the music of Debussy, "Beau Soir" and "Golwoog's Cafe Walk" during their portion of the program.

The initial program in the new fall series of Peter Parade broadcasts will be heard over the WABC-Columbia network, at 10:45 p. m. Thursday, with Irene Beasley, contralto, and Ken Christie Trio, and Victor Young's orchestra as the contributing artists.

Poems of Eugene Field, beloved American author and humorist, set to music will be heard in the program in his honor during the Birthday Party over an NBC network at 8:00 p. m. Thursday. "Wynken, Blynken and Nod" and "Little Boy Blue" are his poems to be sung by a quartet and tenor.

PATTERN 1975

Every frock belonging to the new  
fashions must be flattering, and  
the frock for the larger woman  
must be particularly so. As the  
neckline is nearest the face, a soft  
collar line is one of the most effec-  
tive ways of making a frock be-  
coming. This model has a jabot cut  
narrow enough to give the effect  
of long lines and shaped into a  
puff that matches the pointed line  
in which the skirt is joined to the  
top. A loose belt at the waistline  
marks the waist without too  
severely breaking the line from  
shoulder to hem. Long sleeves are  
included.

Dimensions only—In sizes 20, 22,  
24, 26, 28, 30. Size 20 requires  
3 1/2 yards of 36 inch material. Turn-  
age for every size, and simple, easy  
to follow instructions are given. No  
dramatizing experience is necessary  
to make this model with our  
pattern.

Send FIFTEEN CENTS (one)

ferred), for each pattern. Write
